

# SAHADAT HOSSEN *Software Engineer*

✉ sahadatjh@gmail.com ☎ 01910922069 📍 Badda, Dhaka 🔗 <https://sahadatjh.github.io>

## PROFILE

Full-Stack Software Engineer with **4+ years** of experience building scalable, high-impact applications at BizReflex. Skilled in **TypeScript, JavaScript, NodeJs, PHP, MySQL**, and **PostgreSQL**, with strong expertise in full development lifecycle and system architecture. Successfully delivered complex platforms, including a **Technician-Customer Coordination System (TekumoPro)** and **Garments Production Tracking** solutions. Seeking an opportunity to contribute to innovative, growth-driven teams.

## SKILLS

Programming language: **TypeScript, JavaScript, PHP**  
Frontend: **HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, Angular, RxJS, React, Next.js, jQuery, AJAX**  
Backend: **Node.js, NestJS, Laravel, Express.js, RESTful APIs, Swagger, RabbitMQ**  
Databases & Storage: **MySQL, PostgreSQL, Redis**  
ORM & Query Builders: **Knex.js, Sequelize, TypeORM, Prisma**  
DevOps & Tools: **Git, Docker, Postman, Jest, Linux**  
Concepts: **Object-Oriented Programming (OOP), System Design (Basic), WebSocket, API Integration, Authentication & Authorization, Performance Optimization, CI/CD pipelines**

## PROFESSIONAL EXPERIENCE(4+ YEARS)

**Software Engineer, BizReflex** 📁 06/2023 – Present | 2.8+ years

- Designed and developed **scalable, high-performance backend systems** using **NestJS and Node.js**, following clean architecture and industry best practices
- Built and maintained **secure RESTful APIs** with proper **authentication, authorization, and request validation**, while optimizing **PostgreSQL queries** to improve overall application performance
- Developed and integrated **modern frontend features** using **Angular, React, and Next.js**, implementing **modular, reusable, and maintainable code**

**Web Developer, Barcodetech-Automation** 📁 11/2021 – 05/2023 | 1.6 years

- Developed and maintained a **Garments Production Tracking System** using **Laravel, jQuery, and MySQL**, automating end-to-end production workflows
- Implemented core modules including **fabric batch tracking, dyeing, cutting, inventory management, and shipment tracking**, enabling real-time production monitoring
- Designed and optimized **MySQL databases and queries**, improving **system performance, data accuracy, and scalability**

## PROJECTS

**TekumoPro** 📁 06/2023 – Present

*Real-time, Uber-style field service management in one platform.*

- Built an **Uber-style real-time field service platform** enabling automated job assignment and technician tracking
- Implemented **scalable backend services** with **NestJS, RabbitMQ, Redis**, and optimized **PostgreSQL** queries
- Developed real-time frontend features using **Angular and RxJS**, deployed via **Docker**

**Fabric Batch Tracking System, End-to-End Fabric Production** 2021 – 2023

*Tracking System for the Garments Industry*

- Developed a **full-cycle fabric tracking system** from yarn receipt to shipment using **Laravel, MySQL, jQuery, jq-Grid, Redis**.
- Implemented **barcode-based tracking** for production, dyeing, cutting, sewing, ironing, packing, and shipping to ensure **full traceability and operational efficiency**.
- Automated **batch monitoring, inventory management, and reporting**, reducing production errors and shipment delays.

## EDUCATION

**BSc in CSE, First Capital University of Bangladesh** 📁 01/2017 – 12/2020 | Chuadanga

**Diploma In Computer, Jhenaidah Polytech Institute** 📁 09/2011 – 12/2015 | Jhenaidah
